RE: January 2009 Drug Test Statistics (Adult Arrestees)

Drug testing of adult arrestees for January 2009 revealed a decrease in the level of substance abuse detected for PCP, which was down 2% from December to 8%. The level of substance abuse detected for amphetamines increased 1%, to 3%, while opiates and cocaine remained the same at 8% and 28%, respectively.

The overall number of adult arrestees testing positive for at least one drug was 657 of the 1,696 screened, or 39% -- the same as the previous month.

The breakdown of January 2009 test results is as follows:
